

Mega Min

Mineral Blend

Broad Spectrum Macro and Trace Minerals for Optimum Production, Health and Fertility

MegaMin Mineral Blend provides the benefits of natural broad spectrum minerals and trace minerals and is suitable for use as a year-round supplement. Protein sources, molasses or grains may be added to MegaMin to combine the benefits of minerals, energy and protein to suit your feeding program.

Minerals are essential for growth, health and fertility and because dry feed and even green fodder is often lacking in minerals, clinical or sub-clinical mineral deficiencies can restrict livestock performance. Providing adequate minerals year round can provide real improvement in stock performance and profitability.

Benefits

- ▶ Safe year-round supplementation (No Urea).
- ▶ Scientifically proven in university trials.
- ▶ Suitable for all livestock - health and fertility.
- ▶ May be used as a mineral additive to other feeds.

Feeding Guide

Recommended daily intake is 10-20g/100kg body weight/day.

	FEED RATE (g/day)
Cattle (400kg)	40-80
Sheep (50kg)	5-10
Horses	30-80

Initial consumption rates may be higher due to salt or mineral cravings.

When To Feed

Year-round Supplement for Cattle and Sheep	✓
Weaners/Breeders	✓
