

# Mega Min

10% Protein Meal

**Broad Spectrum Macro and Trace Minerals with Palatable Protein Source for Optimum Production, Health and Fertility**

MegaMin 10% Protein Meal provides the benefits of natural broad spectrum macro and trace minerals, plus 10% copra meal as a palatable protein source to assist intake.

Minerals are essential for growth, health and fertility, and because dry feed and even green fodder can often lack minerals, clinical and sub-clinical mineral deficiencies can restrict livestock performance. Providing adequate minerals year round can provide real improvement in stock performance and profitability.

- ▶ Safe year-round supplementation (no urea).
- ▶ Scientifically proven in university trials<sup>^</sup>.
- ▶ Palatable protein source to assist mineral intake.
- ▶ Suitable for all livestock production, health and fertility.
- ▶ May be used as a mineral additive to other feeds.

## Feeding Guide

Recommended daily intake is 10-20g/100kg body weight/day.

	FEED RATE (g/day)
Cattle	40-100
Sheep/Goats	5-10
Horses	30-80

Initial consumption rates may be higher due to salt or mineral cravings. For more information contact AgSolutions Australia.

## Suitable For

Year-round supplementation	✓
Cattle, sheep/goats, horses and other livestock	✓
Use as a macro and trace mineral feed additive	✓

TYPICAL ANALYSIS (DMB)	10% Protein Meal
Calcium (Ca)	10.3%
Phosphorus (P)	2.0%
Sulphur (S)	1.6%
Magnesium (Mg)	2.6%
Potassium (K)	1.5%
Silicon (Si)	18.2%
Iron (Fe)	3.9%
Manganese (Mn)	0.22%
Zinc (Zn)	635.9mg/kg
Copper (Cu)	91.0mg/kg
Cobalt (Co)	23.8mg/kg
Selenium (Se)	0.8mg/kg
Iodine (I)	1.9mg/kg
Molybdenum (Mo)	3.8mg/kg
Boron (B)	14.0mg/kg
Chromium	164.2mg/kg
Salt (NaCl)	4.0%
Protein Meal	10.0%
Crude Protein	2.2%
Dry Matter (DM)	96.6%

Available in 20kg Bags and 1t Bulk Bags.

Trials performed on MegaMin Mineral Blend at the University of New England Armidale.
