Extra Sulphur Block

High Sulphur Mineral Block to Support Increased Production and Assist Parasite Control

MegaMin Extra Sulphur Block is carefully formulated to provide natural broad spectrum macro and trace minerals, plus additional sulphur to assist rumen health, parasite control, and wool growth. MegaMin Extra Sulphur Block provides good levels of phosphorus and magnesium, which can be the two most limiting nutrients for stock grazing lush green pasture, and is ideal for stock grazing forage sorghum as sulphur helps detoxify prussic acid.

- ▶ Ideal for stock grazing forage sorghum, lush green feed, mulga or sulphur-deficient country.
- ▶ Contains high level of sulphur to help detoxify prussic acid.
- ▶ Supplies key nutrients to support increased meat/wool and milk production.
- ▶ Sulphur can assist external parasite control, such as buffalo fly, lice and cattle ticks.
- ▶ A more weather-resistant alternative to MegaMin Extra Sulphur loose supplement.

Feeding Guide

Recommended daily intake is 10-20g/100kg body weight/day.

	FEED RATE (g/day)	HEAD PER BLOCK	
		17kg	75kg
Cattle	40-80	15	45
Sheep/Goats	5-10	40	100

Commence feeding 2-3 weeks prior to grazing forage sorghum.

Initial consumption rates may be higher due to salt or mineral cravings.

Note: If it is difficult to maintain consumption within the typical intake levels (e.g. Intake is consistently elevated), stop feeding and seek advice from the team at AgSolutions Australia.
