

Feedlot Enhancer

Medicated Premix with Broad Spectrum Minerals, Vitamins, and Boyatec® for Enhanced Production

MegaMin Feedlot Enhancer is a medicated premix that provides broad spectrum macro and trace minerals, vitamins and Bovatec®. Formulated to be thoroughly mixed with grains, protein meals, roughage, and other feed ingredients, MegaMin Feedlot Enhancer helps to provide a balanced ration for feedlot, backgrounding and grain assist situations.

MegaMin Feedlot Enhancer contains Lasalocid Sodium as Bovatec®, which is a cost-effective feed additive used to help improve live weight gains and feed conversion efficiency. When mixed at recommended rates, Bovatec® helps to control clinical signs of coccidiosis and reduction of faecal shedding caused by *Eimeria bovis* and *Eimeria zuernii* in growing cattle. Among sheep, Bovatec® has proven effective in improving growth promotion and feed-conversion efficiency, and has aided reduction of faecal shedding of *Eimeria spp.* that cause coccidiosis in sheep maintained in confinement.

- Preparation of balanced, complete feedlot rations for cattle and sheep.
- Suitable for mixing with grains, protein meals, pulses and/or oil seeds, roughage, and silage.
- Ideal for backgrounding and weaning rations.
- Bovatec[®] promotes beneficial rumen bacteria for better rumen function, helping to improve feed conversion efficiency and daily weight gains.
- Available without Bovatec® upon request.

Feeding Guide

General inclusion rates when part of a balanced ration.

Cattle	20kg/tonne of feed ration (Less for silage rations on an as fed basis)
Sheep/Goats	20kg/tonne of feed ration

WARNING: Equines must not be allowed access to feeds containing Bovatec[®] as ingestion may be fatal. This product should not be fed more than 400mg lasalocid/head/day to lactating dairy cattle.

TYPICAL ANALYSIS (DMB)	Feedlot Enhancer
Calcium (Ca)	17.3%
Phosphorus (P)	0.05%
Sulphur (S)	1.3%
Magnesium (Mg)	2.3%
Potassium (K)	1.3%
Silicon (Si)	12.5%
Iron (Fe)	3.1%
Manganese (Mn)	0.12%
Zinc (Zn)	870.0mg/kg
Copper (Cu)	225.0mg/kg
Cobalt (Co)	16.0mg/kg
Selenium (Se)	6.7mg/kg
lodine (I)	17.6mg/kg
Molybdenum (Mo)	1.5mg/kg
Boron (B)	6.0mg/kg
Vitamin A	126447 IU/kg
Vitamin D3	31612 IU/kg
Vitamin E	253.0mg/kg
Salt (NaCl)	3.9%
Protein Meal	2.3%
Lasalocid Sodium (Bov	ratec®) 1511.0mg/kg
Crude Protein	0.5%
Dry Matter (DM)	99.1%

Suitable For	
Feedlot cattle and sheep	
Backgrounding with silage	
Grain assist	✓
Weaning	
Stud/sale cattle preparation	
Growing dairy heifers
