

# Mega Min

Pre/Post Kidding

## High Magnesium and Calcium Mineral Supplement to Support Herd Health, Fertility and Productivity

MegaMin Pre/Post Kidding provides broad spectrum macro and trace minerals, plus additional magnesium and calcium to promote herd health, fertility and productivity. MegaMin Pre/Post Kidding is ideal for use during pre and post kidding, before joining, when weaning, or during other high stress periods.

MegaMin Pre/Post Kidding is also available with Rumensin™ to aid in the prevention of coccidiosis and promote production.

- ▶ Ideal for pre and post kidding, before joining or when weaning.
- ▶ Supplies vital macro and trace minerals to help meet requirements during crucial and high stress periods.
- ▶ May be fed with grain or pellets when additional energy is required.

### Feeding Guide

Recommended daily intake is 20-30g/100kg body weight/day.

#### FEED RATE (g/day)

Goats/Sheep	10-15
Cattle	100-150

Initial consumption rates may be higher due to salt or mineral cravings. For more information contact AgSolutions Australia.

**WARNING:** Equines must not be allowed access to feeds containing Rumensin™ as ingestion may be fatal. Do not feed to starving, thirsty or salt-deficient livestock. Keep the product dry and feed in open/well-drained troughs, preferably covered.

#### Suitable For

Pre-joining, pre and post kidding, lactating livestock, and weaning	✓
Good quality feed – tropical and temperate pasture	✓
Year-round supplementation for high producing livestock	✓
