High Sulphur and Phosphorus Mineral Supplement to Assist Parasite Control, Herd Health and Productivity

MegaMin SulPhos provides natural broad spectrum macro and trace minerals, plus additional sulphur and phosphorus. Sulphur assists rumen health, is associated with supporting external parasite control and is a key nutrient for wool growth. Phosphorus is one of the most important minerals in animal nutrition and is essential for energy metabolism, appetite, efficiency of feed utilisation, bone growth and fertility.

MegaMin SulPhos SWEET is formulated to assist palatability and intake where consumption is less than desired.

- ▶ Ideal for stock grazing forage sorghum, lush green feed, mulga or sulphur/phosphorus-deficient country.
- ▶ Contains a high level of sulphur to help detoxify prussic acid.
- ▶ Sulphur can assist external parasite control, such as buffalo fly, lice and cattle ticks.
- ▶ Supplies key nutrients to support increased meat/wool and milk production.
- ▶ Phosphorus can assist growth, milk production and fertility.
- ▶ Phosphorus is vital for energy production (dry and green feed).

Feeding Guide

Recommended daily intake is 10-20g/100kg body weight/day.

FEED RATE
(g/day)

Cattle	40-100
Sheep/Goats	5-10

Commence feeding 2-3 weeks prior to grazing forage sorghum.

Initial consumption rates may be higher due to salt or mineral cravings.

Note: If it is difficult to maintain consumption within the typical intake levels (e.g. Intake is consistently elevated), stop feeding and seek advice from the team at AgSolutions Australia.

Suitable For

Year-round supplementation for cattle, sheep/goats	✓
Assisting external parasite control	✓
Stock grazing forage sorghum, lush green feed or mulga	✓
Green/wet season or sulphur/phosphorus-deficient country	✓
